

STOP LAWSUITS – LOWER TAXES

LEGALLY MINE

Dear Doctors,

America's problem is your problem.

Over 94% of lawsuits worldwide are filed in the United States, and doctors are the major targets (even if it is not medically related).

Living your dream makes you a high-risk candidate for attack from trial attorneys and their clients. However, no attorney will file a lawsuit unless there are assets to obtain through the suit.

Let us teach you how to protect yourself, your family, and all you have worked for!

Utah Podiatric Medical Association
